Fog Nozzles

Suitable for use on Class A and Class B fires. Also suitable for general industrial use, as well as rack and reel assemblies.

Part No.	Description	in	Pack Qty.
07-500-00	Lexan Fog Nozzle	1½"	4
07-502-00	Fog Nozzle UL/FM, Brass	1½"	2

Rack Nipples

Placed through a hose rack and screwed into a female angle valve, the rack nipple secures the hose rack to the valve.

Part No.	Description	in	Pack Qty.
07-934-00	MNPT x MNST Rack Nipple, Brass	1½"	5
07-936-00	MNPT x MNST Rack Nipple, Brass	2½"	4

Replacement Handles

Part No.	Description	in	Pack Qty.
07-924-00	Hose Valve Handle w/Nut	1½"	1
07-926-00	Hose Valve Handle w/Nut	2½"	1

Rack & Reel Fire Hose

Designed for interior use as replacement hose for Class II semiautomatic hose racks and reels. Light weight construction using a thermoplastic polyurethane lining and polyester jacket to prevent mold and mildew. Shipped folded for easy rack installation and complete with solid brass hose fittings. UL/ULc Listed and FM Approved.

Part No.	Description	in	Pack Qty.
07-600-00	Pin Rack Hose, (NST), UL/ULc/FM	1½" x 50'	4
07-602-00	Pin Rack Hose, (NST), UL/ULc/FM	1½" x 75'	4
07-604-00	Pin Rack Hose, (NST), UL/ULc/FM	1½" x 100'	4
07-602-01	Pin Rack Hose, (NPSH), UL/ULc/FM	1½" x 75'	4
07-604-01	Pin Rack Hose, (NPSH), UL/ULc/FM	1½" x 100'	4

Universal Hose Valve Caps with Chain

The universal hose valve cap with chain is compatible with most 2½" sized hose valves*. The cap is simply pushed onto the outlet, can be installed without any tools, and is engineered to be removed and put back in place several times without compromising the level of protection it delivers to the threads and against the buildup of debris. NOT SUITABLE FOR PRESSURE TESTING.

Part No.	Description	in	Pack Qty.
07-280-10	Cap w/chain, Universal RL (ABS)	2½"	10

*Not suitable for 2½" RCH Angle Hose Valve
